

Viewing FIRM Panels

Open the Map-Coastal Workmap Index and zoom to the area of the property. The areas outlined in red are being revised by FEMA, areas outlined in black will not change from the July 2012 FIRM panels. Zoom to the area of the property in question and you will note the preliminary firm panel number. As an example, for Beverly harbor area the applicable FIRM panel is 0417.

Open the applicable FIRM Panel and pan to the bottom of the panel for definitions. Pan to the location of interest and view details.
